

Identifying Researchers on the Biomedical Web

IRBW2009 Workshop

May 13-14, Sheraton Gateway Hotel, Toronto International Airport, Canada

Given the pace and direction of evolution of the biomedical domain and the Internet, there is an urgent need for unambiguous and secure ways for researchers to be identified as they use and contribute to electronic publications and data resources. The IRBW2009 workshop aims to promote collaboration, coordination and awareness of this emergent field going forward.

On behalf of the GEN2PHEN Consortium:

Prof Anthony J. Brookes (ajb97@leicester.ac.uk)

Gudmundur A. Thorisson (gt50@leicester.ac.uk)

Department of Genetics, University of Leicester

University Road, Leicester, LE1 7RH, United Kingdom

Telephone: +44 (0) 116 252 3401

Funded by GEN2PHEN and Genome Canada

With support from HUGO and P3G

Wednesday May 13th 17:45 - 20:00

17:45 – 20:00 Snacks in room

Anthony J Brookes	Welcome and Introduction
Gudmundur A Thorisson	Overview of the field & core technologies

Session 1: *Digital identity*

James Walker	Digital identity with OpenID
Kent Percival	Identity management in higher education and research

Thursday May 14th 8:00 – 17:00

8:00 – 8:30 Breakfast in room

Session 2: *Author name disambiguation*

Reynold Guida	Thomson Reuters 'ResearcherID'
Steven Petric	Elsevier Scopus 'Author Identifier'
Geoffrey Bilder	CrossRef 'Contributor ID' project

Coffee break

Session 3: *Data access control*

Anthony J Brookes	Access to aggregate data from genome-wide association studies
John Gallacher	Data sharing in UK Biobank
Lincoln D Stein	The ICGC Data Coordinating Centre

12:00 – 13:00 Group lunch in room

Session 4: *Contribution recognition*

Myles Axton	Contributor recognition
Anne Cambon-Thomsen	Collective authorship and microattribution
Bharati Babat	InSiGHT and the Human Variome Project Initiative
Barend Mons	Community annotation and Contributor ID

Coffee break

16:00 – 17:00 General discussions
